

Röwer & Rüb Arena surface roller

The all-rounder for professional
surface maintenance

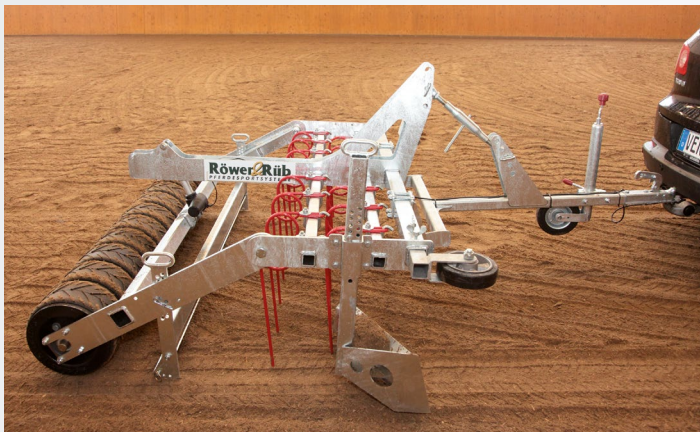

The rake teeth “swirl” the surface, the adjustable blade levels it and the roller wheels compact the ground. Using a spindle the frame can be easily adjusted. The machine can be delivered with either a roller wheel or a mash pattern roller.

adjusted with the jackscrew in such a manner that the device rests on the roller wheel. Alternatively with a ball hitch or three-point linkage with castor device for tractor mounting.

The wall lining scraper with the boundary wheel is standard. For transport purpose, the frame is

Of course all basic fabrication is in galvanized steel.

Article number	Width	Trailer device	Weight	Rake teeth	Net price, ex VAT (Sales tax)
RBW 17 NR	1,70 m	Castor device + tyre roller	280 kg	17	4.400,00 €
RBW 17 NG	1,70 m	Castor device + mash pattern roller	240 kg	17	3.700,00 €
RBW 22 NR	2,20 m	Castor device + tyre roller	320 kg	19	4.700,00 €
RBW 22 NG	2,20 m	Castor device + mash pattern roller	280 kg	19	3.850,00 €
For 4-wheel drive or quads from 500 ccm:					
Article number	Width	Trailer device	Weight	Rake teeth	Net price, ex VAT (Sales tax)
RBW 17 KR	1,70 m	Fitted ball hitch + tyre roller	270 kg	17	4.100,00 €
RBW 17 KG	1,70 m	Fitted ball-hitch + mash pattern roller	230 kg	17	3.350,00 €
For 4-wheel drive or quads from 750 ccm:					
Article number	Width	Trailer device	Weight	Rake teeth	Net price, ex VAT (Sales tax)
RBW 22 KR	2,20 m	Fitted ball hitch + tyre roller	310 kg	19	4.350,00 €
RBW 22 KG	2,20 m	Fitted ball-hitch + mash pattern roller	270 kg	19	3.500,00 €

Surcharges: Hydraulic cylinder € 240,00/Electric jackscrew € 340,00/Additional wall lining scraper € 130,00.
